 10u. and box silicone pads L 10u.
 ref. 011150022

BROWS & LASHES TINT

The eyebrow and eyelash tint delivers colour and radiance as well as creating the illusion of more volume and thickness. It intensifies the natural look without needing to use mascara or make up.

Our wide colour range with 9 tones and a bleaching agent offers countless possibilities, allowing us to apply colours directly or to use different combinations.

Our tints have a double action, since, in addition to delivering colour thanks to their active ingredients, including **ARGAN OIL** and **KERATIN**, they are a cosmetic treatment for hair, which is strengthened, repaired and hydrated.

Furthermore, thanks to the new **ACTIVE COLOR** formula, they provide an even and long-lasting colour.

BROWS & LASHES TINT

DOUBLE
ACTION

3

PROPERTIES

TESTED

DOUBLE ACTION: Thuya's eyebrow and eyelash tint is the only double action formula, since it provides colour and treatment in just one application. Thanks to its active ingredients, it acts on hair as a cosmetic treatment by strengthening, repairing and providing hydration.

KERATIN: Keratin is the main component of the skin's external layer. Its main functions are to strengthen and repair. Furthermore, it provides resistance, impermeability and shine.

ARGAN OIL: It hydrates and restores smoothness to hair. It is instantly absorbed by the hair and repairs, nourishes, and provides a silky, youthful and healthy appearance. Thanks to its properties, it improves elasticity and flexibility.

ACTIVE COLOR: A formula developed to achieve better results with an intense and long-lasting colour.

BROWS & LASHES TINT

LASH EXTENSIONS

Increase the volume and length of your eyelashes. A unique treatment designed to enhance your look. Natural result and incredible appearance. Exuberant looks.

MAXIMUM QUALITY: Quality eyelashes, which respect and care for natural eyelashes thanks to their lightness, always respecting the weight allowed by natural eyelashes.

PBT POLYMER: Next generation hair consisting of a PBT polymer, which is characterised by being ultra-light and unalterable throughout its life-cycle. It does not deform, nor lose shine, with a completely natural finish visually and to touch.

WIDE RANGE: More than 40 items. With individual, 3D and 5D eyelashes, and with different kinds of diameter, length and coverage to achieve the ideal design for each face type.

TYPE OF HAIR

It is the classic type. A single extension is placed on top of the natural lash.

To highlight, provide volume, depth and definition to the look. 3 thin extensions are placed on top of your natural eyelash.

Extreme volume. It gives the maximum density and intensity. 5 very thin extensions are placed in each natural lash.

DIAMETER

● **0.07** **Thin** and perfect for 3D and 5D extensions.

● **0.15** **The standard diameter.** Ideal for 1D extensions.

● **0.20** **Thick diameter** perfect for 1D

CURVATURE

For curly lashes but with a natural look.

A more intense curl providing the great eye opening.

Extreme curl for big eyes.

To enhance and lift the natural eyelash.
